فايزة [1]

Program : lines of code translated to do a sequence of operations

## \* Program Vs Software

Program is small in code and tasks

Software is complicated in code and tasks

## \* Software engineering Cycle

Analysis  $\Rightarrow$  Design  $\Rightarrow$  Programming  $\Rightarrow$  Program  $\searrow$

Installation  $\swarrow$  testing

## \* Program Scaling: -

This means that adding more features to a program result in bigger code "more lines"
